

Type of final circuit	
	Households
Lighting	0.66
Heating and power	100% up to 10 A + 50% balance
Cookers	10 A + 30% balance + 5 A for socket
Motors (but not lifts)	
Instantaneous water heaters	100%X + 100%Y + 25%Z
Thermostatic water heaters	100%
Floor warming installations	100%
Thermal storage heating	100%
Standard circuits	100%X + 40%(Y+Z)
Sockets and stationary equip.	100%X + 40%(Y+Z)

device	demand kw			demand amps(kw*4.3)			total amps
