Kingspan Ferham
cold water cistern

Ask for a package price if you're also buying an Albion copper cylinder

Introducing Kingspan Ferham

Brand leader in cold water storage for over 35 years, Kingspan Ferham Cold Water Tanks are renowned for their robust design and manufacturing quality.

Kingspan Ferham tanks are approved for the hygienic storage and supply of cold potable water to an open vented cylinder, they can also be used as expansion tanks in vented heating systems.

They are manufactured under a quality management system which is fully compliant with ISO 9001:2015, with cisterns not only meeting industry standards but exceeding them with some products even featuring the gold standard of full British Kitemark to BS4213:2004.

Kingspan Ferham Cold Water Cisterns Product Guide

VERSION TWO - OCT 2019

Key Features:

- Roto-moulded from approved hygienic polypropylene plastic
- Robust cistern design for maximum durability
- Available in capacities from 4 to 100 gallons (18 to 455 litres)
- Kitemarked on selected models
- WRAS approved materials
- Manufactured to BS4213:2004
- 1-Year Guarantee against manufacturing defects

Open Top (Stackable)

Popular with installers, open top cisterns can be easier to fit through tight loft hatches. With the open top giving full access for fitting all components, making the tank substantially quicker to fit.

Low Level (Coffin)

Specifically designed with a low profile to make them suitable for installing in locations with limited headroom, such as lofts. They are fully enclosed to provide maximum protection from contamination.

Now supplied complete with kits*

To make it easier for the installer and help ensure installation complies with the water regulations, we have updated our range and now supply our most popular cisterns with kits.

Close fitting lid

Insulation jacket (60mm) & ties

Byelaw 30 fittings & backplate†
